Our Projects

OFFICE BUILDING RENOVATION AT TERMINAL BUILDING 1

(CAIRO INTERNATIONAL AIRPORT)

Consultant : Engineering Department of
Cairo International Airport

Main Contractor : KEMET Co.

Project Consists of Renovating Facades of Office Building (Building A and B). This was done in Aluminum Cladding , Aluminum Windows and Curtain Walls.

All Aluminum Cladding Work produced by Alucobond Company in Germany.

And Installed on Steel Chassis as Shop Drawings.

The Total Value of Works by enzyme was 274,646,000.

The Date of the notification 16 Jan 2008 .

The Date of receipt of the site 16 Feb 2008.

Types of Shapes:

- Exterior Facades (Flat & Curved Cladding)
- Interior Facades (Flat & Cylindrical Col.)

Our Projects

TERMINAL BUILDING 2 (CAIRO INTERNATIONAL AIRPORT)

Consultant : ECG
